

PERSIMMON WOODS TOWNHOMNES ASSOCIATION
BOARD OF MANAGERS
RESOLUTION
RESERVE STUDY AND FUNDING POLICY

Dated: February 11, 2010

The Board of Managers of Persimmon Woods Townhomes Association, Inc., a Colorado nonprofit corporation (the "Association"), hereby approves and adopts the following Resolution:

RESOLVED, that the following Policy of the Association related to Reserve Studies and Funding is hereby adopted and ratified:

1. Scope. In order to properly maintain areas in Persimmon Woods Townhomes that are the responsibility of the Association, to comply with state statutes, and to protect the market value of Owners' units and livability in Persimmon Woods Townhomes the Board of Managers determines that it is necessary to have policies and procedures for the Association to have reserve studies prepared and funded.

2. Reserve Study. In order to determine funding of the Reserve Fund, the Board of Managers may determine, with the assistance and advice of professionals, the life expectancy of those portions of Persimmon Woods Townhomes to be maintained, repaired, replaced and improved by the Association and the anticipated costs of maintaining, repairing, replacing and improving those identified areas (hereinafter referred to as a "Reserve Study").

a. Full Reserve Study. The Association commissioned a full Reserve Study ("Full Study") in 2008. The Full Study was comprised of both a physical and a financial analysis. The physical analysis included a component inventory, condition assessment (based on an on-site visual inspection) and life and valuation estimates of components. The financial analysis included a report on view of the status of the reserve fund at the time of the Full Study, a projection of the reserve balance and shortfalls or excesses if funding continues at the current pace, projections of reserve expenses, and recommended reserve fund contributions for a minimum of twenty (20) years, together with recommendations for projected sources of funding and a funding plan. The Full Study was conducted by one or more third-party professionals with experience in conducting reserve studies for homeowners' associations and followed the best practices guidelines adopted by the Community Associations Institute ("CAI") from time to time.

b. Every five years after the completion of the Full Study, the Association will commission an updated reserve study ("Updated Study") that will be comprised of both a physical and a financial analysis. The physical analysis will include an updated inventory to show modification, addition or deletion of components, a condition assessment (based on an on-site visual inspection of components) and updated life and valuation estimates of components. The financial analysis will provide any necessary updates to the report provided in the Full Study.

9. Review of Reserve Study. The Board of Managers, in conjunction with the Association's tax and legal advisors, if any, will review the Full Study and any Updated Studies and will create and periodically update the following:

- a. Schedule of maintenance and replacement of components.
- b. Funding plan, including projected sources of funding.
- c. Reserve schedule.

11. Definitions. Unless otherwise defined in this Policy, initially capitalized or terms defined in the Declaration and Bylaws shall have the same meaning herein.

13. Deviations. The Board may deviate from the procedures set forth in this Policy if in its sole discretion such deviation is reasonable under the circumstances.

12. Waivers. The Association is hereby authorized to extend the time for the filing of lawsuits and liens, or to otherwise modify the procedures contained herein, as the Board of Directors shall determine appropriate under the circumstances.
